

## ARE NOW TIED FOR FIRST PLACE

Spaulding High Defeated St. Albans, While Burlington Lost to People's

SPAULDING GIRLS ALSO WERE WINNERS

St. Albans Team Was Completely Outplayed by the Locals

Spaulding's chances for the championship of the state interscholastic league became somewhat brighter last evening when the St. Albans high school aggregation were forced to taste defeat at the hands of their Spaulding opponents, the local team winning by the score of 52 to 15, while the Burlington high school team, which has led the league race all the season, was meeting defeat at Morrisville by People's academy. At present the Burlington team and the Spaulding team are tied for first honors in the league race, and each team has two remaining games on the schedule, making the outcome an uncertainty until the last game will have been played.

Spaulding's two defeats have been against Burlington at Burlington and against People's academy at Morrisville, while the two stumbling blocks in the path of the Burlington team were those of Spaulding at Barre and their defeat of last evening at Morrisville. Upon the arrival of the news of Burlington's defeat, the Spaulding-Bethel girls' game was halted for a few minutes while the enthusiasm of the Spaulding students rose to such a pitch as was only equalled when ex-President Roosevelt made a visit to Barre some years ago. The Spaulding girls retrieved their defeat at Bethel several weeks ago by defeating the Whitecomb high girls at the gymnasium last evening by the score of 10 to 3.

In the big event of the evening's double-header the Spaulding team showed true championship form, outclassing their opponents in every manner and scoring almost at will, although the Railroad city boys showed an exhibition of passing which was only broken up by the fast work of the Spaulding guards. For the winners, Mann was the high scorer, he shooting 12 baskets and scoring enough points to insure a victory, while he was followed by Geals with five, Morse with four, Lyons with three and Carpenter with two baskets to their credit. Geals played a fast and clean game, playing to a better advantage than at any other time on the local floor this season, while Morse also put up a fast game, playing his usual strong game on the defensive. For the losers, Sunderland led the scoring with three baskets, while Shannon, Herrin and Davis each caged one. The line-up was as follows:

Spaulding.	St. Albans.
Mann, f.	Lyons, g.
Geals, c.	Shannon, g.
Morse, rg.	Herrin, c.
Carpenter, lg.	Sunderland, f.

Score, Spaulding 52, St. Albans 15; baskets from the floor, Mann 12, Geals 5, Morse 4, Sunderland 3, Lyons 3, Carpenter 2, Herrin, Davis and Shannon; baskets from fouls, Center 3; referee, Brown; time, two 20-minute periods.

The Spaulding girls' team displayed their superiority over the girls' team of Whitecomb high school by defeating them to the tune of 10 to 3 in a game which was fast and interesting throughout. Miss Gee of the Spaulding team was the individual star of the game, she securing

## EVEN CROSS, SICK CHILDREN LOVE SYRUP OF FIGS

If Feverish, Bilious, Constipated, Give Fruit Laxative at Once

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachache, indigestion, diarrhea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, mother! A little given to-day saves a sick child to-morrow, but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember, there are counterfeiters sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup—Adv.

## KAISER SCHOOL BOOKS ARE BANISHED IN NEW YORK

Hohenzollern Pictures and "Deutschland Ueber Alles" Ruled Out By Supt. Straubenmuller.

New York, March 2.—Principals in New York City high schools yesterday prepared to enforce a ruling of Dr. Gustave Straubenmuller, acting superintendent of schools, forbidding the use of nine German language text books heretofore employed in the class rooms. Pictures of the Hohenzollern family, the words and music of "Deutschland uber Alles" and laudatory references to German rulers and their handling of governmental affairs are contained in the books.

## LUIGI GALLEANI PLEADS GUILTY

Italian Editor of Lynn, Mass., Obstructed Draft Registration—Fined \$300.

Boston, March 2.—Luigi Galleani was fined \$300 and John Eramo \$100 by Judge Aldrich in the United States district court yesterday afternoon, both having pleaded guilty of conspiracy to overthrow the United States government by obstructing the draft registration. Galleani is publisher of an Italian newspaper at Lynn and Eramo is in his employ.

Both defendants pleaded guilty while the case was before a jury for trial.

## NEGLECTED BY FRENCH.

Russia Only Cultivated By the Germans, Says Count Nesselrode.

Paris, March 2.—Count Nesselrode, one of the first Russians to respond to the people's demands for a better share of the world's goods by distributing among them all of his property except what he required for his own living, says the neglect by the French and other leading nations, except Germany, to cultivate relations with the Russian people.

He was exiled in 1905 by the government because of the bad example he set to the nobility in giving his property over to peasants. Since then he has resided in France and become a naturalized citizen of the republic. A personal friend of Kerensky, Count Nesselrode was a fervent adherent to the revolution and gave to the provisional government what aid he could from this end.

"The French are astonished at the progress made by German influence in Russia," he says, "but they forget that the Germans are simply reaping the reward of persistent efforts that date back to a remote period." As an example Count Nesselrode points to the great number of Russian students in German universities, where they were aided, encouraged and cultivated in every way. He puts the number just before the war at 35,000.

Count Nesselrode has now been completely ruined by the revolution, the little property he had retained having been sacked, devastated and appropriated, yet he knows his faith in a final sane outcome of the revolution and he considers it a great fault for the nations of the entente to base their attitude toward Russia on any other hypothesis.

## ATTACKED BY GERMANS.

Vessels Sailing Between Norway and the United States.

Christiania, March 2.—Vessels sailing between America and Norway outside the danger zone and not touching British ports lately have not been attacked by Germans probably more in their own interests than for any special love of Norway. Germany for a long while has not been able to send food to Norway and as far as known has not promised to do so even if Norway refused to accept American conditions for food export to this country.

German vessels sailing to Norway must now have provisions, oil and kerosene for the whole round trip and will only in exceptional cases be allowed to get small quantities of Norwegian products.

Some great Norwegian factories producing articles for export to Germany are run by German coal oil and kerosene as are fishing vessels obtaining fish for export to Germany.

Norway at present receives from Germany steel and iron for construction and is absolutely dependent on Germany for the import of potassium compound kainite, which is used extensively for fertilizing.

## BOMB FOR U. S. ATTORNEYS

Death Menaced Lawyers in I. W. W. Prosecution at Chicago

INFERNAL MACHINE IN FEDERAL BUILDING

Powerful Enough to Blow Wing to Pieces—Defense Begins in Trial

Chicago, March 2.—Discovery of a bomb in the federal building has furnished a mystery on which a number of government agents are working. The bomb was found partly hidden under a pile of rubbish in one of the rooms occupied by lawyers in charge of the I. W. W. prosecution. It was a heavy steel cylinder, 12 inches long and about two inches in diameter, with a long fuse in one end. It was a powder company found that the cylinder contained a number of metal slugs and an explosive powder. They gave it as their opinion that the explosion of the bomb would have wrecked the entire wing of the federal building.

## COUNT MINOTTO ORDERED HELD FOR ACTION

The Son-in-Law of Louis F. Swift of Chicago Will Not Be Deported.

Washington, March 2.—Count Minotto, son-in-law of Louis F. Swift, Chicago packer, detained as an enemy alien yesterday was ordered held for action by the attorney general, but not ordered deported.

A review of the evidence made public by the department of labor says Minotto was "notoriously associated" with German officials, as was his father, who, it also was disclosed, is under suspicion. Minotto, the department found, was closely associated with Count Luxburg, and also M. and Mme. Callaux, when they were in South America.

## GOVERNMENT TO BUY CORN IN BIG LOTS

500,000 to 750,000 Bushels a Day to Be Taken in Middle West for the Allies.

New York, March 2.—Corn to the amount of from 500,000 to 750,000 bushels a day will be purchased during the next three weeks at the various middle west grain exchanges by federal committees for use abroad, it is announced.

A telegram from Food Administrator Hoover to the federal food board here said committees will be appointed to make the purchases in the exchanges at Chicago, Minneapolis, Omaha, Duluth, Milwaukee, Kansas City and St. Louis, where receipts total between 1,500,000 and 2,000,000 bushels daily.

## MORRIS & CO.'S LARGE SALARIES

Wage Arbitrators in Stockyards Hearing Hear About Big Pay to Officials.

Chicago, March 2.—When the stockyards wage arbitration was resumed yesterday Frank P. Walsh, attorney for the employees read a telegram announcing that the men employed in the logging camps and lumber mills of Oregon and Washington had been granted the eight-hour day. Judge Alschuler, arbitrator, asked for details and Mr. Walsh agreed to obtain the information. Cross-examination of William Farris, general superintendent for Morris & Co., was continued by Attorney Walsh.

"Is it not true that a great amount of the profits of Morris & Co. are paid out in large salaries which the executives vote themselves?" he asked.

"I do not know," was the reply.

Mr. Walsh read a list of what purported to be the salaries of principal officials as follows:

Edward Morris, president, \$75,000 a year.

Nelson Morris, chairman of the board of directors, \$75,000 a year.

L. E. Heyman, vice president, \$50,000 a year.

C. M. McFarlane, vice president, \$45,000 a year.

He said the salaries of Edward and Nelson Morris had increased in 1916 from \$35,000 to the present figures.

"Would you be in favor of bringing Chinese labor here to work in the packing business?" Walsh asked.

"Not unless the government passed the necessary laws authorizing it," replied Farris.

Attorney James G. Condon explained that the subject had been discussed with Secretary Wilson of the department of labor last summer by employers from all parts of the United States, but that the secretary strongly opposed the idea, saying that he believed the employers had the wrong point of view.

## DRAFT AMENDMENT BROUGHT UP IN SENATE

Administration Measure Would Bring in Men as Fast as They Reach Age of 21.

Washington, March 2.—The administration amendment to the draft law to bring in men as they reach the age of 21 was brought up in the Senate yesterday as emergency legislation for immediate passage, but finally was put over until to-day.

Without discussion the Senate passed another resolution authorizing the president to call into immediate military service skilled experts in industry or agriculture.
